ART DAY PROGRAM

Indoor Exhibitions and performances

SICD promises an exciting and varied program including art exhibitions in 16 art spaces, giving visitors the opportunity to attend exhibition openings, interact with local and international artists, experience contemporary art, performances, as well as enjoy free food and drink from our south side partners.

Outdoor installation

Beside the indoor art activities, we will run an outdoor installation program. Around 10 local and international artists will install interactive pieces in the streets of Wong Chuk Hang. Visitors will therefore be able to experience more art from different artists going from one gallery to another.

Art World Forum

This year we are once again partnering with the ART WORLD FORUM to host a series of talks from 10am to 2pm. prestigious international and local speakers will cover a variety of topics related to art.

Free shuttle buses will be running from 10am to 2pm from Wan Chai's Grand Hyatt to Wong Chuk Hang.

What is the South Island Cultural District (SICD)?

Founded in 2013, SICD is currently formed by 19 galleries and art spaces in the South Island areas of Wong Chuk Hang and Tin Wan. With the exception of Central, no other district in Hong Kong can claim to have so many high quality galleries located in the same area. And no other district has so many galleries hosting exhibitions in large industrial spaces (ranging from 3000 to 5000sf). SICD is a major evolution and improvement to the Hong Kong art scene and the South Island district has become Hong Kong's new destination for contemporary art.
