

Software Engineer Internship

On any given day, every moment matters to someone, somewhere. And every moment, Motorola Solutions' innovations, products and services play essential roles in people's lives.

Our internship program is designed with you in mind. It all starts with our belief that the next big idea can come from anyone, anywhere at any time.

Your teams & roles:

As a member of the team, you will support project delivery and be a part of a complex system integration project life cycle; such as participating in the system design reviews, preparation of project documentation, software delivery management, user acceptance testing etc. You will be able to familiarize with project requirements for each project area, interact with remote teams and be coached by our senior engineers.

To successfully complete internship program, you should have skills:

- Diverse interest / knowledge /activities on ICT, and advance technology.
- Proven ability to harmonize with project team members
- Good interpersonal and communication skill
- Good command of English
- Must be self motivated and self starter

How to Apply:

Please send your CV, transcript, DSE certificate and any enquiries to JOBESHK@motorolasolutions.com

Only shortlisted candidates will be invited for first round interview.

Personal data collected will be used for recruitment purposes only
