

## **Intern with the IMOC and visit us in Florida next year**

Dear Student,

Greetings from the International Maths Olympiad Challenge team

At the outset, let us first introduce ourselves. We are among the largest International Maths Olympiad bodies in the world and we have an ongoing legacy for 24 years. We have catered to more than 2 million students in the past and this year, with the assistance of partners like Deloitte, we are all set to hit 3 million students. We are based in Florida with key stakeholders all across the world. Our CEO, who is also an Assistant Dean at Harvard, would like to take this opportunity to invite you to participate in a Student Ambassador program.

The opportunity we are offering you is 2 fold.

Firstly, we are shortlisting smart students who can intern with us (online) this Jan-Feb. This is a paid internship which will last for 6 weeks (30 working days). The remuneration is bespoke but to give you some perspective, the average amount earned by a student last year was USD 748 in the 6 weeks window. There are no specific timings during this internship and you are expected to work online after college hours only. We do not expect you to work during any exam period.

The second aspect of this internship is an all-expense-paid trip to our campus in Florida. If you excel in this internship, you will be nominated as a Student Ambassador of the IMOC for a fully sponsored 10-day conclave in Florida. Of course, more details would be shared well before the conclave. Due to the pandemic and the consequent travel restrictions, we haven't frozen the dates of the conclave yet, but we expect it to be conducted in the second half of next year with the selections to begin in Jan 2021.

All the details regarding the internship and the Student Ambassador Program will be explained to you during a webinar which will be conducted later this month.

If you would like to avail this opportunity, fill up the form below. There are multiple webinar slots you can choose from. We are eager to have you intern with us and visit us as well. Good luck!
