

Bank of America

Code to Connect 2021

Are you interested to use your passion for coding to develop applications that will become the banking platform of the future?

At Bank of America, our Tech teams are at the forefront of leading-edge technology, leveraging on our people to develop and build innovations that continue to drive the success of the bank.

Code to Connect had its inaugural run in 2019 where we were overwhelmed by the enthusiasm and talent displayed by all participants. This year, we bring to you a virtual edition of Code to Connect, which will run in the month of July.

We start off with a 'Learning Series' which will give you the basics of how we use technology to solve for different real-life issues in the bank. There will also be mentoring sessions, where you will spend time with our assigned mentors, who will give you insights on how to approach the problem statement. All these will culminate in our ultimate Coding Challenge, where you will get to analyze a problem statement and submit your code to us.

Timeline

12 July, 12pm to 1pm	Code to Connect Kick Off
13 July, 12pm to 2pm	Learning Series - Global Markets Operations Technology
14 July, 12pm to 2pm	Learning Series - Equities Technology
15 July, 12pm to 2pm	Learning Series - Fixed Income, Currencies and Commodities (FICC) Technology
19 July	Coding Challenge will be released to shortlisted participants
22 and 26 July	Mentoring sessions
27 July, before 6pm	Submit code
30 July 12pm to 1pm	Announcement of winners and prize presentation

**Learning Series are not mandatory, but are highly encouraged as we will be giving tips on how to approach the Coding Challenge. The Coding Challenge will be individual assignments.*

Why should you join our Code to Connect program?

- Use a coding language (either C++, Java or Python) to solve a Coding Challenge related to the bank's functions
- Receive guidance and mentorship from members of our Technology team
- Experience what it's like to work in the Technology division at Bank of America
- Stand a chance to be fast tracked into the interview rounds for internship and full-time positions in the bank
- Winners of the Coding Challenge will win attractive prizes

Registration Instructions

If you are **graduating in 2022 or 2023**, and have a passion for coding and learning new things, [click here](#) to register your interest for the Learning Sessions and/or Coding Challenge. If you are shortlisted, we will contact you with more information. For any questions, please email us at APAC_Campus@bofa.com

Applications will close on **4 July 2021 (Sunday)**.
