Introduction

The graduate employment survey is conducted annually by the Placement Section of the Office of Student Affairs. Its purpose is to find out the general employment situation of the full-time graduates for the year. The survey reveals the graduates' first career destination, remuneration information, job searching process and career preparation and development.

Methodology

Questionnaires were distributed to graduates when they returned to the campus in mid October to pick up their caps and gowns for graduation ceremony. Follow-up phone calls were made to non-respondents and previously unemployed graduates. Following the University Grant Committee's (UGC) guidelines, information on employment status was gathered up to 31 December 2006.

The bulk of the analysis is concentrated on the graduates engaged in full-time employment. The classification on job nature and employment fields was derived from the classification systems provided by UGC. Details of the classification on employment sector, employment field and job nature is shown in the Glossary.

Response

The survey targeted all 2006 full-time graduates of the University. As shown in Appendix 1, this year, a total of 1444 graduates completed their undergraduate studies and among 49 courses/majors/options of the three Faculties and three Schools. There are 173 full-time taught postgraduates and 65 full-time research postgraduates. For the ease of report reading, courses/majors/options are grouped under their respective Faculties/Schools.

Out of the 1444 undergraduates, 1438 valid responses were received, representing a response rate of 99.58% (99.71% in 2005). 84.97% and 78.46% responses rate were noted for full-time taught and full-time research postgraduates.

Executive Summary

SECTION A FULL TIME UNDERGRADUATES

Overall Employment Status

At the close of the survey, the unemployment rate is zero (0.07% in 2005). 85.40% of graduates were working full-time, 0.97% self-employed and 10.50% pursuing further studies. The percentage of employed graduates and those pursuing further studies are similar to last year. The number of graduates engaged in part-time or temporary employment has further decreased from a total of 2.41% last year to 2.09%.

Employment Sectors* and Job Nature

The Commercial or Industrial sector captured 69.78% of our graduates this year, a 8.88% drop as compared with last year (76.58%). Some 50.69% increase in the number of graduates securing employment in the education sector from 12.39% last year to 18.67% was noted. The distribution of the other sectors is: Community/Social Services Organizations (7.78%) and the Government (3.77%).

Teaching / Lecturing (17.06%) and Banking / Finance (10.09%) ranked the first and the second most frequent job nature respectively. The other top five job natures are distributed among Administration / Management (8.70%), Marketing / Sales (7.71%) and Media & Communications (7.14%).

Remuneration

The average monthly salary (including commission, allowances and any year-end bonuses) is \$11,107.22, a 7.24% increase (\$10,356.89 in 2005). All the employment sectors have demonstrated a moderate increase of salary. The majority of salary increases came from the education and the community/social service sectors, which noted 8.40% and 8.08% respectively. The increase in the commercial or industrial organization and the government sector is comparatively lower, which is 5.16% and 4.70% respectively.

Further Studies

There are 151 graduates pursuing further studies, which is 10.50% of our graduates, a slight increase of 3.45% from last year (10.15% in 2005). Among those graduates, 93.88% were in postgraduate/master or above level of studies. Chinese University of Hong Kong and Hong Kong Baptist University are the most popular local institutions for graduates to further their studies, enrolling 37.31% and 35.82% of our graduates respectively.

SECTION B FULL TIME TAUGHT / RESEARCH POSTGRADUATES

Overall Employment Status

At the close of the survey, the unemployment rate for the postgraduates was 1.01% (0% in 2005). 82.99% of the taught postgraduates (79.46% in 2005) were in employment with 80.95% working full-time or self employed, 2.04% were engaged in part-time employment and 0.68% pursuing further studies. For research postgraduates, 68.63% were employed full-time (45.24% in 2005) and 11.76% pursuing further studies (11.90% in 2005).

Employment Sectors* and Job Nature

The Education sector captured the majority of postgraduates 69.59% with 70.80% (66.98% in 2005) of our Taught postgraduates and 65.71% (68.42% in 2005) of Research Postgraduates entering this field this year. The Commercial or Industrial sector has absorbed 26.55% (23.58% in 2005) of the Taught postgraduates and 28.57% (26.32% in 2005) of the Research Postgraduates.

Remuneration

The average monthly salary (including commission, allowances and any year-end bonuses) is \$15,372.73 for Taught postgraduates (\$13,868.97 in 2005) and \$18,673.57 for Research Postgraduates, an increase of 11.49% (\$16,749.76 in 2005).

Further Studies

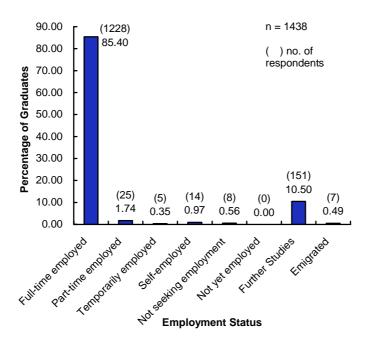

One out of 147 Taught postgraduates has chosen to pursue further studies. There are 6 Research Postgraduates pursuing further studies, which is 11.76% of our respondents (11.90% in 2005).

*New classification of employment sector was adopted to truly reflect the present situation. Government replaced Civil Service, as the government was employing non-civil service positions. Public Utilities has been broken down to its various counterparts. Non-profit making organizations were replaced by Community/Social Services organizations, to truly reflect its nature of employment.
