#### Office of Student Affairs Organises its First High Table Dinner to Broaden Students' Horizons

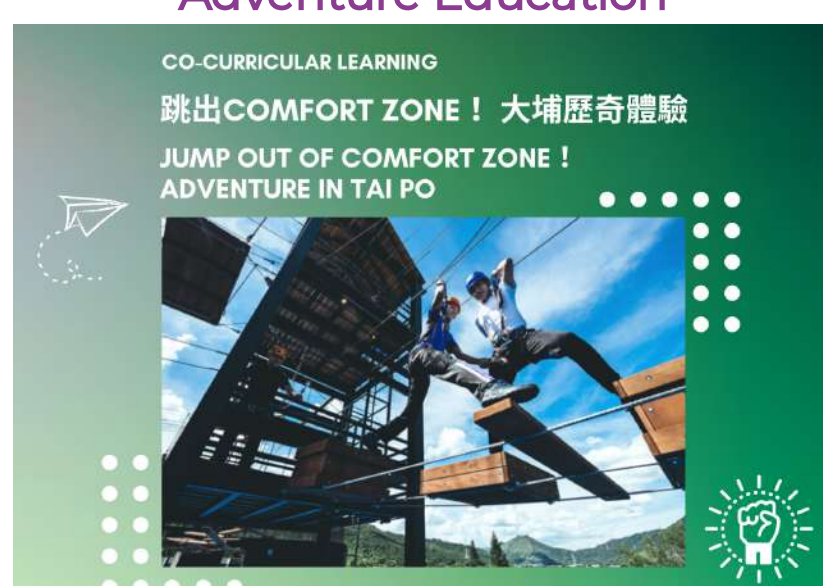

The Leadership Qualities Centre of the Office of Student Affairs has launched HKBU High Table Dinner in 2022/23 with the kind donation from Tin Ka Ping Foundation. Speakers with unique life experiences are invited to share with HKBU students in a formal dining context and on a wide variety of topics including social, cultural, economic, and technology issues. The High Table Dinner aims to expose students to social dining etiquette while promoting interactive dialogues, as well as giving students more insights on certain topics as delivered by keynote speakers.

HKBU is honoured to have Mr Hay Lap Tai, BBS, JP, Vice-Chairman of the Board of Directors, Tin Ka Ping Foundation as the Keynote Speaker of the first High Table Dinner. Mr Tai shared with students his valuable insights of VUCA world. He encouraged students to be well equipped, and to explore and consider different possibilities after graduation. Students were inspired to reflect and instill positive values. Along with the precious opportunity to mingle with Table Hosts, HKBU alumni who actively participated in campus and a variety of activities, students were able to gain insights contributing to their personal growth and life planning.

More than 120 students, alumni and friends of HKBU joined the first High Table Dinner on 12 January 2023. They included Dr Albert Chau, Vice-President (Teaching and Learning); Professor Henry Fock, Director of Student Affairs and Ms Adele Wan, Assistant Director of Student Affairs.

### Highlights

#### Cultural Literacy (LIVE)

"He He She She III" was an interactive performance based on true stories about LGBT+ and sexual minority. Supported by the Social Work Department, over 60 participants spent an evening together for a fruitful discussion.

#### Global Vision

Six executive committee members of HKBU MUN Club organised an orientation night and two training sessions to club members. Besides improving the public speaking ability, participants also developed diplomatic and interpersonal skills.

#### Community Engagement

With the support from two elderly centres, 46 students experienced life-changing journeys in the course GCAP 3067. By applying the skills and knowledge learnt, they exhibited creativity in designing interactive activities and demonstrated a great sense of citizenship during the service.

#### Community Engagement

After undergoing a series of trainings, around 100 devoted students joining the **Skilled Volunteer Cadre** applied their skills learnt to serve the community. With their selfless dedication and commitment, they accumulated more than 1,000 service hours, benefitting a wide range of underprivileged people from children of low-income families to elderly with limited mobility.

#### Community Engagement

30 HKBU students took part in a **Joint-U service programme promoting social integration**. They formed teams to conduct challenges at various districts with different service targets, including primary school kids, ethnic minorities, elderly and visually impaired people. During the journey, they got to know the daily lives of the service targets and realised their strengths.

#### Community Engagement

16 students participated in a **Joint-U Homeless Service Programme**. Through a series of training workshops, role plays, sharing with homeless people and visits to their living spaces, the programme enabled students to understand the situation of homelessness and poverty, show care to them and deliver them with daily necessities.
