

DEHIWALA LIYANAGE Ishanka Harshani Kusum Peiris
PHD (HKPFS) SPEH

As an HKFPS awardee, I was informed that I am qualified to apply for residency at the NTTIH. In surfing the official webpage of the residence, I had the impression that I would have a comfortable living experience at the NTTIH. Therefore, it did not take me long to make a decision to apply for NTTIH. My confidence in its convenience for commuting from NTTIH to campus was high. At NTTIH I was happy to be living there, and in this sense, I was right about my decision. Also, it felt safe enough to be in my office at night knowing NTTIH was nearby to walk into at any time. Furthermore, NTTIH has always put our residents' safety first, which left me feeling the best place to live during the COVID-19 pandemic.

I must say that the NTTIH staff members are diligent about informing residents about anything that may affect our living conditions. For example, I was informed about the construction site next to the residence, and how it could the noise and dust might affect us. So, all staff members made sure that the construction site caused as little disturbance as possible. At the moment, there are interior renovations are processing as well. As a result, I'm sure the accommodation will become more attractive, and the prospective residents would be thrilled with the facility. Not only that, but also the NTTIH staff always respond to maintenance issues, miscellaneous back office-related inquiries and front desk requests promptly. I was almost always able to have my problems solved within a day or two. The cleaning and security staff deserve a huge thank and respect as well. My tiring days were sometimes enlivened by their gentle greetings. 😊

Also as a student ambassador at the NTTIH, I have some words to share with you. The ongoing pandemic prevented many student ambassadors from planning and organizing physical events that would have engaged all NTTIH residents. Despite, all of the ambassadors, including me, could facilitate online events, providing a new level of challenge and a new socializing platform. Although, the relevant authorities will place a lot of restrictions on social gatherings to prevent spreading the pandemic, residents of NTTIH have numerous opportunities to socialize virtually. As such, I encourage all future residents to apply for the ambassador program and to gain experience at NTTIH with the new normal conditions. Finally, I must say that I am honored to be a part of the NTTIH Team as a resident and as an ambassador for almost a year. Let all the words I wrote become a bouquet of flowers for all the staff and residents who made my time at NTTIH so memorable.

Thank you very much!
බොහොම ජනූනියි!
非常感謝你!
😊
