BA VISUAL ARTS

Before staying at NTT, I have joined some of the activities held by the previous Blessing Ambassador Programme last year, such as volunteering the elderly to utilize Apps and related software of smart phone. It was an excellent experience for me to organize such an exceptional social service. Meanwhile, I have met many friends from different cultural backgrounds from these kinds of services, which I wished to live in NTT as “an international citizen”. Owing to this, I was devoted to becoming a student ambassador without any doubt when I started to live in NTT.

Due to COVID-19, there were many activities held online, while we also tried to have some activities be held in face-to-face mode. The most unforgettable experience for me to be the student ambassador is organizing “Calm Bottle (冷靜瓶) DIY workshop”. From designing the materials to organizing the schedules, I have learned a lot. Although this was not the first time to be a role of tutor for student activities, I was proud to deliver so much fun to our residents under the restriction of social distance.

To me, NTT is more like an international community rather than a living hall. I was confused about the non-local identity that I could not fit in here but the experience of living in NTT helped me get out of the puzzle. Thanks to NTT, I have gained excellent living experience and friendship here, which would be one of my precious memory in HKBU.
