

Mi Fuyao, Robin
BBA (Accounting)

I am honoured to act as a student resident ambassador of NTT this year. Due to the pandemic, it was difficult for us to hold a lot of face-to-face activities. However, with the help of NTT management, we held a lot of online activities. By virtual interaction, the relationship between people become closer.

As we all know, NTT is a multi-cultural environment. We have friends from all around the globe. The different cultural background has enabled me to look at things from different angles. Moreover, I can learn a lot from fellow hall mates with other culture.

I quite enjoy the lives in NTT. The housekeepers and front-line staff are all friendly and kind. I also joined the Food Services Committee to share my suggestions of the food quality in the campus. I am grateful that NTT provided me with precious opportunities to join all kinds of activities. I think the year in NTT is my happiest year in the University.
